Vote YES on 69 for:	Or continue to have:
✓ Comprehensive health care for you and your family, always	Frustrating annual enrollments and limited care options
✓ Full access with no deductibles and low co-pays waived for financial hardship	High annual deductibles, high out-of-pocket expenses
✓ Choice of Provider, with no limited networks	Narrow networks, inaccurate provider lists and surprise out-of-network bills
✓ Affordable health care, fairly based on income	Debt and medical bankruptcy from skyrocketing deductibles and insurance costs
✓ Health care money kept in Colorado to create local jobs and a stronger state economy	Health care money sent out of state for overpriced executives, corporate lobbyists, and claims deniers
✓ Annual savings of \$4.5 billion by reducing bureaucracy and administrative waste	\$4.5 billion wasted on bureaucracy and administration that do not add value or services
✓ Providers treated professionally and fairly with increased Medicaid and Medicare payments	Substandard pay for providers willing to treat elderly, disabled and financially challenged patients
✓ Patient-based care focused on primary care and preventive support for all Coloradans	Abandoning the uninsured and sending them to emergency rooms for basic care
